WEDDING CLOTHES OF MURDERED GIRL

Shown in Court and Young Gillette for First Time Was Moved.

Herkimer, N. Y., Nov. 20.—Grace Brown's wedding clothes, which were made by friends and neighbors of the girl who was drowned in Big Moose lake on the very day she planned to go to the altar as the bride of Chester E. Gillette, were shown in court today, where Gillette is on trial charged with responsibility for her death.

For the first time since the trial began Gillette appeared deeply affected. Forty letters that had passed between him and Grace Brown were read by the district attorney and as he heard the familiar words repeated the prisoner's eyes filled with tears. The letter read first was from Gillett to Grace Brown. It was written in 1905 while she was home on a vacation. The letter was addressed to "Billy" Brown and in it Gillette said he did not know how he would get through a week without her.

INSANE WOMAN THROWS CHILD TO DEATH IN THE SEA

Passenger on Ship Grabs Baby from Mother and Hurls It Overboard.

New York, Nov. 20.—Suffering from what is believed to have been temporary insanity Rosa Naegle, a Swiss nurse, grasped Aaron Guvowski, 1 year old, from a group of children at play on a deck of the steamer Nieuw Amsterdam, when the ship was in mid-ocean Thursday and threw him overboard. He was drowned.

No sooner had a cry of the child's loss gone up from the after end of the ship than Captain Bonjer rang for the engines to be stopped and reversed. Then, despite a heavy sea, a boat was lowered to look for the child, who was seen at least once on the crest of a sea. For three hours the liner swung in a circle about the small boat, hoping the body might be found to alleviate the distress of the mother, who stood weeping at the rail.

When there was no further chance of rescue the boat was recalled to the ship and the liner came on her way. Mrs. Jacob Guvowski, the mother of the baby, is on her way to Fargo, N. D., to join her husband.

Only prompt action by the ship's officers saved the nurse from being torn into pieces by the frenzied passengers, led by the mother. They held her as she stopped in her wild running along the deck and took her quickly below. Dr. Kelly, the ship's physician, said that he believed she had become suddenly insane and had been seized with a desire to kill one she seemed to love best as insane persons have done. She is a prisoner on the ship, and will be returned to Europe.

MEMBER OF BLACK HAND SHOT.

Italian is Killed by Fellow Countryman at Pittsburg.

Pittsburg, Pa., Nov. 20.—Antonio Tuscia, a member of an alleged black hand society, was shot and killed today at McKeesport, Pa., by Joseph Sparatto, whom he threatened to kill unless $500 was paid to the society.

Tuscia called at Sparatto's home several times demanding the money and threatening to kill him if he informed the police. Each time the money was refused and Sparatto purchased a revolver to protect himself.

Tuscia and his brother demanded the money again yesterday, and when Sparatto tried to escape from them a fight started. To save himself Sparatto fired seven shots into Tuscia's body. The brother escaped.

TODD GETS JUDGMENT.

But Traction Company Will Appeal 45-Cent Case From Lagro.

Wabash, Ind., Nov. 20.—In 'Squire McClure's court yesterday judgment was given George Todd for forty-five cents, the demands he made for a ticket to Peru he had not used. It is understood the Wabash Valley Traction company will appeal to the circuit court. Mr. Todd bought the ticket and did not use it. The company refused to redeem it because the thirty days had expired, it being claimed the ticket was void thirty days after purchase. The case is an important one, but has a remarkably small amount involved and the costs are far above the forty-five cents.

Clifton Jacobs, night clerk at the Red Line Messenger office, has been promoted to day clerk.

IMMENSE DAMAGE BY STORM AND FLOOD SOUTHWEST

Louisville Suffers Heavy Damage—Rivers All Out of Their Banks.

Louisville, Ky., Nov. 20.—The persistent rainfall of the last three days culminated early today in an electrical storm and cloudburst that made the city tremble. Trees were struck by lightning, the telephone systems of the city were much disorganized and telegraph facilities in all directions were impaired. Streets in many sections of the city resembled lakes and it was impossible for pedestrians to move about without wading knee deep in water. Basements were flooded and stocks in several retail establishments were damaged to an aggregate of about $50,000. The rainfall in Louisville since Saturday has been six inches and at Memphis, Tenn., it has been ten and one-quarter inches. Nearly all trains from the south are arriving in Louisville from one to sixteen hours late.

Remarkable Temperature Contrasts.

The formation of the present disturbance which has caused such widespread damage from floods over the Ohio valley, western Tennessee and Arkansas is such as to present a remarkable contrast in temperatures east and west of the Mississippi river. To the east of the river the temperatures range this morning from 50 to 72, while west it is mostly freezing or below, thermometers in Minnesota and the Dakotas registering from zero to ten below. In northern Texas the temperature is 22 and New Orleans reported 80 at 10:30 this morning. Snow is reported over the Missouri valley, Kansas and Oklahoma and sleet and rain in Missouri, while there is a continuation of the rain over the Ohio valley, Arkansas and southward to the gulf.

South Louisville and other southern suburbs of the city bore the brunt of the damage. The streets and sidewalks in the vicinity of Seventh and P streets resemble a lake. Canoeing was a possibility at daylight on P street between Sixth and Seventh and several of the residents brought into service improvised rafts and poled their way from their homes to a point where they could land.

As far in the city as Fourth and A and Fourth and Brandeis streets, the flood was heavy and many persons living in the vicinity of the triangle and a few squares beyond were forced to abandon the first floors of their dwellings until the water receded.

GREAT DAMAGE BY CLOUDBURST

Hopkinsville, Ky., Suffers Great Loss by Floods.

Hopkinsville, Ky., Nov. 20.—A cloudburst here early today following heavy rains of two days, sent Little river out of its banks and flooded a large portion of the city. The damage is estimated at from $50,000 to $100,000. Many stores on Main street had from one to three feet of water in them, and the three-story brick building of James F. Garnett on Main, near Ninth, collapsed, two of the four stores in the building being wrecked.

The Illinois Central railroad tracks were four feet under water and the passenger depot floated from its foundation. The tracks nearest the river at the foot of Ninth street were undermined and destroyed. Many families in the colored section, near the river, were driven from their homes and the police had to rescue some of them.

The electric light plant is submerged and there was much damage to telegraph and telephone wires. Losses were sustained by at least twenty business houses. The large union tabernacle was flooded three feet deep. Eleven inches of rain have fallen at Hopkinsville since Saturday morning.

ASK DUNNE TO KEEP TILLMAN OUT OF CHICAGO

Colored Citizens Tell Mayor His Lecture Would Prove Disturbing.

Chicago, Nov. 20.—Protest against the delivery of an address in Chicago by Senator Benjamin Tillman was made today to Mayor Dunne by a delegation of colored citizens. Dr. A. J. Carey, pastor of Bethesda church, was the spokesman of the party and he declared that Senator Tillman's speech would destroy the harmony now existing in this city among the colored citizens.

Mayor Dunne asked the committee for data of several speeches said to have been delivered by Senator Tillman and tomorrow will hold a conference with the people interested in the Chicago union hospital, who were instrumental in bringing the senator to this city. The funds to be derived from the lecture of the senator are to go to the hospital. The mayor would not discuss the matter today or intimate what action he would take, if any. "I will only say," he said, "that a man who justifies lynching cannot be a consistent believer in law."

The settlement calls for an increase of four cents an hour in the Scranton and Buffalo yards, the smaller yards to have a proportionate increase. The ten-hour day is granted on all parts of the system, the wages that were paid for a twelve-hour day being made the ten-hour basis on which rate the increase is to be made.

NOTABLE MEN GATHER AT TRANS-MISSISSIPPI CONGRESS

Annual Meeting in Progress at Kansas City—Elihu Root to Speak.

Kansas City, Nov. 20.—The Trans-Mississippi Commercial congress met here this morning. Every state in the union was represented, the states in the Mississippi and Missouri valleys and those making up the western half of the country were represented by a greater number of representatives than ever before in history of the organization, while from the east also the attendance exceeded that of previous years.

The program of the first day's proceedings included the annual address of David R. Francis, of St. Louis, president of the congress, who delivered his message at the opening session.

Others scheduled to speak were: E. H. Harriman, president of the Union Pacific railway, and F. B. Thurber, of New York city. The latter's topic was "Socialism; Its Influences Upon Business and the Development of Our Country."

PAYS 400 PER CENT DIVIDEND.

New York Bank to Get $4,000,000 Back Again by Stock Issue.

New York, Nov. 20.—Directors of the Chase National bank, one of the great Wall street institutions, declared yesterday a dividend of $4,000,000, being 400 per cent of its present capitalization. While the sum will be paid in cash, the stockholders will subscribe immediately to a similar amount of new capital which was authorized on Nov. 12.

This action on the part of the bank is in line with similar steps taken by many of the large banking institutions following a ruling by the comptroller of the currency. This ruling limited the amount to be lent to one borrower to a fixed percentage of the capital stock. The consequence was that many banks immediately began to increase their stock.

The capital stock of the Chase National bank Nov. 12 was $1,000,000, and the surplus $5,000,000. The net profits were stated as $1,136,989. From the surplus $4,000,000 is to be taken as a cash dividend and applied to the capital stock, leaving $1,000,000 to the surplus account, to which is added the net profits. These two amounts will supply $2,136,989 to the $4,000,000 surplus as of Dec. 12 next. The deduction is made that the Chase has concealed assets, such as the case in the First National bank readjustment of capital a few years ago, when a dividend of approximtely 2,000 per cent was declared.

ORDER CAUSED NO SURPRISE.

Fort Reno, Okla., Nov. 20.—The order from Washington to hold in abeyance the order discharging the negro troops without honor, did not come as a surprise at Fort Reno. Military men who have watched the extent of the public feeling against the discharge orders have believed that the war department would delay the carrying out of the project until a further investigation was made. It is believed here that Secretary Taft is responsible for the abeyance order. During his recent trip of inspection of the military posts in the south, it is understood that Gen. W. S. McCaskey, head of the department of Texas, made the secretary thoroughly acquainted with the history of the entire affair at Brownsville.

SAYS WORK ON DECATUR TROLLEY LINE HAS NOT STOPPED

President Fledderjohann in Denial of Current Rumors.

President W. H. Fledderjohann, of the Fort Wayne and Springfield Traction company, in Fort Wayne today, issued an emphatic denial of rumors to the effect that work upon the trolley line between Fort Wayne and Decatur had been temporarily stopped by reason of a lack of funds to complete the road.

"We have $50,000 that we have not yet touched," said Mr. Fledderjohann to The Sentinel, "and instead of ceasing work we are hurrying it along just as rapidly as possible. Our force of men has stopped only when compelled to do so by bad weather. The track is now completed into Fort Wayne, the wires are strung as far north as the Allen county line and the bracket-men will be able to complete their work within a few days, if it ever stops raining. The power house at Decatur is completed and several tests have shown that the machinery is working properly. The delay in receiving motors for our cars has been another source of annoyance, but we have information that they were shipped several days ago. Just as soon as they reach Decatur we shall install them and begin the operation of cars over at least a portion of the road."

Mr. Fledderjohann declined to fix a probable date at which cars would reach Fort Wayne, though he expressed the opinion that it would be very soon. He was highly annoyed by the reports, some of which got into print, to the effect that work on the line had been suspended.

On behalf of Edward White, Hugh Hogan and Julius Tonne, former trustees of the city waterworks department, Harper and Eggeman filed in the superior court today a plea in abatement in which they asked the court to dismiss an action brought against them to recover an alleged shortage in the funds taking the ground that F. W. Urbahns, who was secretary, during their administration, was the custodian of the money received and gave bond for the faithful performance of his duties.

They set out that no money came into their hands and that Urbahns received it and made settlements with the country treasurer. In further support of the motion it is cited that Urbahns gave bond with John Mohr, jr., and C. S. Bash as sureties as a guarantee that he would account for all moneys coming into his hands.

Mr. J. F. Kinsey announces elsewhere in this issue the opening of a big factory sale of pianos at his store, 929 Calhoun street, tomorrow. Mr. Kinsey was for some time located at the corner of Calhoun and Superior streets. His business grew so rapidly that he found it necessary to secure a larger room and he was fortunate enough to get a lease on the room at 929 Calhoun street, in the Fox building, where he has fitted up a very attractive store and stocked it with a large number of fine instruments. This factory sale is an innovation in Fort Wayne music trade and the public will be interested in reading his announcement, which states that Kinsey & Co. have just purchased 269 pianos, almost twelve car loads, which will go into this unusual sale.

A Square Deal

Is assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women and children. Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles used in them, viz.—pure triple-refined glycerine. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and antiferment, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

GROOMING COUNTS

But it cannot make a Fair Skin or a Glossy Coat.

Women with good complexions cannot be homely. Creams, lotions, washes and powders cannot make a fair skin. Every horseman knows that the satin coat of his thoroughbred comes from the animal's "all-right" condition.

Let the horse get "off his feed" and his coat turns dull. Currying, brushing and rubbing will give him a clean coat, but cannot produce the coveted smoothness and gloss of the horse's skin, which is his complexion. The ladies will see the point.

Lane's Family Medicine

Is the best preparation for ladies who desire a gentle laxative medicine that will give the body perfect cleanliness internally and the wholesomeness that produces such skins as painters love to copy.

MALTOSE AND HEALTH

Physicians Say Its Use in the Human System is of Great Value.

The great value of maltose as a nutritive substance cannot be exaggerated. It is highly recommended by physicians, because it is so very easy to digest. It has not so sweet a taste as cane sugar and can be taken in much greater quantities.

"Malta-Vita" is from the Latin and means "Malt Life." It is a wholewheat food treated with malt extract, making it rich in maltose, easily digested, readily assimilated and forming rich, healthy blood.

For many years the medical profession have prescribed semi-solid malt extracts which contain a large percentage of maltose, but which cost from fifty cents to seventy-five cents per pound. Malta Vita contains from eight to ten per cent. of this wonderful blood-maker and costs but ten cents per package.

Malta-Vita is the only malted wholewheat food. It is prepared to meet the requirements of old and young, weak and strong. On account of its rich malt properties, to every man, woman and child it gives blood, bone, muscle and brain energy and a buoyancy of life that cannot come from other food. All grocers sell Malta Vita. 10 cents.

REMARK STARTS RUN ON BANK.

Rush of Withdrawals Follows Careless Saying by Unknown Person.

Chillicothe, Ohio, Nov. 20.—A careless remark made by some citizen unknown to the police started a run on the savings bank of this city yesterday. It began at noon and continued until late last evening. Women, children and men quit their employment and ran to the bank to withdraw their savings. One depositor said he saw a statement of the closing of the doors published in one of the evening newspapers. It was discovered, however, that he saw the bank's semi-annual statement, which read balance on hand at close of business, November 10, and he considered that it meant the bank was to quit business. There is said to be absolutely no cause for the run, as the institution is one of the strongest state banks in Ohio.

KAISER THINKS JOB OF KING IS THANKLESS TO THE LIMIT

German Emperor Has a Few Things to Say, But Is an Optimist.

Munich, Nov. 20.—The kaiser has drawn a pen picture of himself to prove that he isn't half as bad as he is painted by his critics.

Recent criticism of his personality apparently has stung the kaiser into a reply. Like Theodore Roosevelt, he doesn't hesitate to shatter tradition and ignore political conventionalities if they stand in his way.

The kaiser admits he is an optimist. He distrusts "the man with the pessimistic eye." He likes to work. He loves to travel. He has an abounding faith in the future of Germany.

He adds that a man who rules an empire has a thankless job.

How It Came About.

It was to Dr. Ludwig Ganghofer, the author, that the kaiser unburdened his mind. Dr. Ganghofer, with the kaiser's permission, prints in the Neueste Nachrichten an outline of the kaiser's recent talk. The kaiser received the author on Nov. 12, and, referring to the optimistic vein pervading Dr. Ganghofer's book, "Hoher Schein" ("High Polish"), said:

"I am an out and out optimist, and nothing will prevent me continuing so to the end of my life." He added:

"One gets on much further in life if one does not look at everything with a pessimistic eye, and this is equally true in politics. Without doubt the German people have a future, and there is one word which annoys me wherever I hear it—reichsverdrossenheit (translatable as 'unwillingness of the people to support the empire'). What's the good of this? Let us rather work and look to the future."

Why He's a Traveler.

The emperor, mentioning his frequent journeys, said:

"When I travel, especially when I go into Scandinavian waters, I am freed for a few weeks of all that weighs on me. Yet people often take amiss that which gives me such pleasure. I know I am called the 'traveling emperor,' but I have always taken that as a joke.

"I love traveling, especially in my own country. I think the feeling of homogeneousness is strengthened thereby, and many Germans have no idea how beautiful our native land is, and how much there is to be seen. I am always glad when I become acquainted with a new part of Germany.

Ruling a Thankless Job.

"I often feel inclined to jump into an automobile and dash off for a couple of days, returning full of energy and contentment. Such recreations, especially to one in my responsible position, are, indeed, doubly necessary, because I am exposed to many misunderstandings and am always in a thankless position, as I am conceded no independence. If I succeed the whole world asks, 'Who was his adviser?' and if I fail they say, 'He did not understand the matter.'

"Regarding happenings which people look upon as a matter of course in the case of other princes, in my case they ask, 'Why did he do that?' and the only possible answer can be, 'Because I am working for the good of the German empire and the German people.'"

Works All the Time.

The emperor describes himself as a man fully occupied with work and who believed in his work, and added:

"I am determined to make progress, and I would be pleased if others rightly understood what I am aiming at and supported me."

His majesty referred to the difficult position in which a man got who was suspicious, and quoted from Dr. Ganghofer's "'Silence in the Forest,' saying:

"He who is suspicious not only does injustice to others, but injures himself. It is our duty to regard others as being good until they prove themselves to be the contrary."

"According to this principle," said the emperor, "I have always treated everybody with whom I have to deal. Of course, one will have some unpleasant experiences, but one must not be discouraged. One must always approach life and humanity with renewed confidence."

To protect the little ones and for the information and satisfaction of mothers the contents of each bottle of that wonderful children's remedy, Cascasweet, have been placed on every label. Cascasweet is a harmless compound of vegetable extracts that is wonderful in its beneficial effects on the stomachs of babies and children. Recommended and sold by all druggists.

Recent assertions that Winston Churchill, who got a few votes in the New Hampshire election, may yet be elected governor lack the basis of conformity to the constitutional requirements in that state. Floyd, the republican candidate, got nearly 3,000 plurality, but fell 176 short of a majority over all. The New Hampshire constitution provides that if no candidate has a majority the legislature shall elect one of the two candidates having the highest number of votes. As the legislature is strongly republican this leaves no doubt as to who will be elected.

Governor Hanly will shortly make an effort to put an end to the boxing matches that have been growing more and more common in Indiana. At present several Chicago prize fighters are matched for contests in this state and it is the intention of the governor to notify the sheriffs in counties where boxing shows are given that such contests must not be permitted. Fort Wayne is one of the cities that are in need of such attention. It is to be hoped Governor Hanly will be able to promptly put a stop to the Indiana prize fights and boxing contests. They do no good, and foster a sentiment that is without a single improving tendency. Governor Hanly will have the support of the good citizenship of Indiana in his efforts to stop this brutal species of amusement.

General Crozier reports that the 12-inch guns are exhausted after firing sixty rounds at their highest power, the rifling wearing out, thus converting them into smooth bores. In the latter capacity, however, they are powerless, and moreover would be dangerous to the men serving them. His recommendation is for a larger gun with lower velocity. An hour or two of rapid firing would use up all our big guns. Fortunately the guns of an assailing fleet, though capable of more shots than those of fortresses, are not of much longer life. The guns, moreover, are served by artillerists every one of whom costs the nation at least $1,000 a year to pay and maintain. War under modern conditions is terribly expensive in money alone. The nations practically fire gold, and perhaps it is well for the world's peace that they do.

Representative L. F. Livingston, of the Fifth Georgia district, says that as soon as possible after the opening of the coming session of congress he will introduce a bill repealing the statutory provision for a tax of 10 per cent. upon currency issued by state banks. "In my opinion," he says, "I believe it is the only way in which to provide a more elastic medium. It is impossible for state banks to issue money under the present conditions, but with the tax removed and a rigid state inspection they could easily do so and in a way have practically the entire resources of their states as a guarantee of par value for their issue. Texas, for instance, has millions of dollars' worth of state lands, and my own state is almost equally wealthy. All of the terrors of 'wild-catting' could be avoided, and would be avoided, and the agriculture classes of particularly the south and west benefited."

If the federal government makes good its charge against the Standard Oil company the supreme court of Ohio will have to take cognizance of the fact or sink very low in the esteem of lawyers and very well informed citizens. Just fourteen years ago that court found that the Standard had given over its stock to a trust—trust in the old law meaning of the term, which is in direct and flagrant violation of the Buckeye law. The court issued its mandate requiring the company to forthwith take back its stock. "Either do that or we will dissolve the Standard Oil company of Ohio." The chief men of the Standard promised. They got down on their knees and implored the court not to dissolve their company and thus cast it out of the state, with a receiver appointed to wind up its affairs. According to the "petition" in equity filed in the St. Louis court promises made on bended knees by Standard oil people are not of the sacred character supposed to attach to all promises. Instead of performing what they had promised the trustees, according to the "petition," went on running the trust just as if the Ohio supreme court had never said anything. So far as they were concerned it had not.

ARMY OFFICER MUST EXPLAIN.

Accused of Writing Letter on Foreign Birth and Promotion.

Washington, D. C., Nov. 20.—The case of Capt. Carl Reichmann, of the Seventeenth infantry, has been brought to the attention of the military authorities, and it is stated that the officer will be called on to explain his alleged infraction of the articles of war. Capt. Reichmann is now with a regiment at Havana, Cuba, and it is alleged that he recently wrote a letter to a friend in New York, which was subsequently published, in which he is said to have charged that he had been denied membership on the general staff because of his German birth, and also that he had been otherwise discriminated against by his superiors in the army because he is not a native American.

WHAT JOY THEY BRING TO EVERY HOME

as with joyous hearts and smiling faces they romp and play—when in health—and how conducive to health the games in which they indulge, the outdoor life they enjoy, the cleanly, regular habits they should be taught to form and the wholesome diet of which they should partake. How tenderly their health should be preserved, not by constant medication, but by careful avoidance of every medicine of an injurious or objectionable nature, and if at any time a remedial agent is required, to assist nature, only those of known excellence should be used; remedies which are pure and wholesome and truly beneficial in effect, like the pleasant laxative remedy, Syrup of Figs, manufactured by the California Fig Syrup Co. Syrup of Figs has come into general favor in many millions of well informed families, whose estimate of its quality and excellence is based upon personal knowledge and use.

Syrup of Figs has also met with the approval of physicians generally, because they know it is wholesome, simple and gentle in its action. We inform all reputable physicians as to the medicinal principles of Syrup of Figs, obtained, by an original method, from certain plants known to them to act most beneficially and presented in an agreeable syrup in which the wholesome Californian blue figs are used to promote the pleasant taste; therefore it is not a secret remedy and hence we are free to refer to all well informed physicians, who do not approve of patent medicines and never favor indiscriminate self-medication.

Please to remember and teach your children also that the genuine Syrup of Figs always has the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package and that it is for sale in bottles of one size only. If any dealer offers any other than the regular Fifty cent size, or having printed thereon the name of any other company, do not accept it. If you fail to get the genuine you will not get its beneficial effects. Every family should always have a bottle on hand, as it is equally beneficial for the parents and the children, whenever a laxative remedy is required.

ROOT IS PROPHET OF THE WORLD'S PEACE AND SEES WAR'S END

Secretary of State Makes a Notable Address at Kansas City.

Kansas City, Mo., Nov. 20.—"The United States, the new world power for peace, with friendship for all and entangling alliances with none," was the keynote of Secretary of State Root's address here last night.

Three envoys from South American republics—Ignacio Calderon, minister of Bolivia; Felipe Pardo, minister of Peru, and Enrique Cortes, minister of Colombia—sat beside the secretary of state and applauded his sentiments. Then in their turn they spoke of the growing wealth and power of their own republics, and predicted a closer friendship, political and commercial, between the "nations below Panama" and the great republic.

The occasion was the twelfth annual banquet given by the Kansas City Commercial club in commemoration of the signing of the John Jay commercial treaty. Five hundred guests were present, including E. H. Harriman, the railway magnate; S. M. Felton, president of the Alton system, and other men prominent in high commercial circles.

Secretary Root's Address.

When Secretary Root was introduced as the guest of honor of the evening it was several minutes before he could begin his address.

A world-wide peace, substantial and enduring, made possible by closer commercial and friendly relations between nations, was the keynote of Secretary Root's speech. He approved the axiom laid down by Washington of "friendship for all with entangling alliances with none," but said the time had passed when the United States could afford to neglect its foreign relations, as it had in the early days of the republic.

"We have responsibilities and duties," he said, "duties to civilization and to humanity, which we can not escape if we would and which the conscience of America will not permit us to escape if we could."

He said that America should so guide her foreign relations that she would be loved and respected by all nations. "The life of the just and faithful and kindly man who is respected and beloved by his neighbors," he said, 'is the type of what every citizen should wish his own country to be in its relations to all other countries." The true preventive of war was "the willingness of the people of the world to be just toward one another."

Nation Formerly Isolated.

Mr. Root spoke in part as follows:

Since John Jay made the tariff treaty which is commemorated by the annual dinner of this club the United States has passed through a period of comparative isolation and indifference in foreign affairs. The fathers of the republic who in their early lives were colonists, were naturally familiar with European affairs. The whole course of colonial life, followed by the French alliance and the early wars of Great Britain, was one of intimate relation with Europe.

The young republic bounded on the north by the British provinces, on the south by Florida and Louisiana, the possessions of Spain and France, and to the west by savage tribes under foreign influence; the navigation of the Mississippi blocked at the mouth by foreign guns and with an extensive ocean borne commerce, had to be keenly alive to foreign influence and the course of foreign diplomacy.

But when our southern and western borders were relieved from these influences and the end of the exhaustive Napoleonic wars had led Europe to turn its strength toward its own internal affairs and the colonization and trade of the orient had begun to absorb the surplus activity of Europe, we turned our attention to our own internal matters and for a long period ceased to take much note of what was going on abroad or to be much concerned with the way in which it might affect us.

Again In Touch With World.

Now, however, our growth has been so great as to bring us again on the wider field of the world's trade and constructive enterprise into contact with all the great and active nations of mankind. We have entered anew, whether we will or not, by the necessities of our development into the field of intimate relations with all the nations of the earth.

It is a field in which the guiding principle laid down by Washington of "friendship for all, with entangling alliances with none," is as wise a rule of conduct as it was in Washington's time. It is as true now as it was then that Europe has certain primary interests in which we are concerned and into which we should not permit ourselves to be drawn; yet it is a field in which we care no longer to be indifferent or to be ignorant, for in it the interests of our vast productions and trade are vitally concerned, and in it we have responsibilities and duties, duties to civilization and to humanity, which we cannot escape if we would and which the conscience of America will not permit us to escape if we would.

Nations Have New Diplomacy.

In this time of vast immigration, of international investment and ownership, of opportunities for enterprise and of enlarged peaceful intercourse and, above all, of steadily progressing popular government a new diplomacy has found place. It is a representative diplomacy and answers not to the judgments of courts or sovereigns but to the judgment of great popular masses. It grows continually more true that the sentiments, feelings and opinions of the people determine policies, decide upon the issues of peace and war and establish those sympathies between nations which are more powerful than written and signed treaties of alliance.

A new responsibility rests upon the people whose representatives answer to their will in shaping their treatment of foreign nations. The thoughtful men of every self-governing people have a duty to inform themselves carefully and thoroughly, to think soberly and clearly and to express themselves temperately and wisely upon foreign affairs.

We already realize that the same rules of right conduct which obtain in our individual intercourse with each other apply also to our internal political action and the exercises of the powers of self-government. We realize that what is wrong and to be condemned in the conduct of man to man is wrong and to be condemned in the conduct of public officers and in the conduct of politicians.

Each People Has a Soul.

In the relations between nations which the great body of the people now control there should be a general, all-prevailing and controlling sense that the same rules of conduct ought to be followed. Nations have souls and consciences as truly as individuals. The life of the just and faithful and kindly man who is respected and beloved by his neighbors is the type of what every citizen should wish his own country to be in its relations to all other countries.

To be narrow and hard, selfish and grasping, to be arrogant toward the weak and timid in maintaining the right against the strong, to be unwilling to give kindly consideration to the rights and interests and feelings of others, to be without sympathy or helpfulness for the right of mankind all these things make an individual man despised or hated in the community. We should take the same pains to help our country avoid them that we would take to avoid them ourselves.

The greater part of the controversies and wars between nations arise from the tendency of the people of each nation to assume that upon every question which arises all the right is upon their own side and to insist upon having their own way without that deliberate and kindly consideration of the rights and interests of the other side of the question which a just man would give to his neighbor.

America to Act As Example.

America has given to the world an example of a democracy made up of individuals capable of that self-control and self-restraint which enables the defeated contestants in a most excited political controversy to accept peacefully the judgment of the majority and leads the entire community, however keen may be its feelings to bow with respect to judicial judgment.

The same spirit, re-enforced by the sentiment for humanity and the desire to help the progress of civilization, the rule of peace and justice throughout the world, may exert a powerful influence not only upon our own affairs with other nations but upon the international intercourse of mankind.

Mediation and arbitration are useful methods if solving international controversies without recourse to war, but the true preventive of war is the willingness of the people of the world to be just toward one another; the strong desire of the people of the earth to be kind to one another; the application of the same rules by all men to their collective treatment of other nations which good citizens apply to their individual treatment of each other. The true and final antidote for war is the love of justice and peace among the people, who make war or preserve peace.

Immediately following Mr. Root the diplomatic representatives of five Latin-American republics, Bolivia, Peru, Colombia, Brazil and Chili, made addresses.

Common sense is just as necessary (even more so) in medicine as in business or the affairs of every day life. People are getting to know more than they used to. Not so long ago, it was the fashion to make all sorts of claims for a medicine, and wind up by asking the reader to go to a drug store and buy a bottle. People won't stand for that kind of thing now. They want proof—tangible proof. They want to try the remedy first and if they find it to be what is claimed they will be glad enough to go and buy it.

A CONVINCING ARGUMENT.

That is why we say to every person suffering from piles or any form of rectal disease, send us your name and we will gladly send you a free trial package. For we know what the result will be. After using the trial you will hurry to your nearest druggist and get a 50 cent box of Pyramid Pile Cure, now admitted by thousands to be one of the most wonderful reliefs and cures for Piles ever known.

Quaint Potato Favors for the Thanksgiving Dinner

Nothing will create more fun or merriment at the Thanksgiving family reunion than some quaint, original favors which can be made at home especially for the occasion. They take away any formality at once and serve as a subject of conversation when others fail. Of all the humorous holiday suggestions of this sort none will be found more acceptable than the favors made from potatoes, either from the white or the sweet potatoes of the south. All sorts of curious figures, or caricatures of men and animals can be made by any one with a bit of ingenuity about them. A Tiny Tad series might be made by following the designs given each Sunday in the New York Herald's supplement.

In this instance queer birds and animals were manufactured by the aid of sweet and Irish potatoes, lemons, beet stalks, with toothpicks for legs and the heads of parlor matches for eyes. A young Brooklyn girl was the originator of these potato favors and for years she has supplied her friends with them on certain festive occasions gratuitously. So successful were they in their role of fun making that she finally decided to go into the business for profit, and now prepares them for order for holiday dinners or for any function where amusement is desired.

It takes a certain amount of cleverness to fit the potato to the character represented, or rather to see in certain crude shapes of the tubers the possibilities of developing quaint forms.

Any peculiarity or defect in form must be taken advantage of and worked out. For instance, in the cat made from a sweet potato, the shape indicated at once the possibility of forming one of the feline species out of it. All that was necessary was to indicate the eyes, ears and add four paws, and the animal was complete. In the Thanksgiving bird was another good chance that was not neglected. Beet stalks were added for the tail, a sprig of parsley for the comb, the skin of the potato cut to imitate wings, and two tooth picks for legs.

A lemon sufficed to form both a rustic pig and a sunfish. There are no end of possibilities for developing queer animals from fruit and vegetables, and it is not at all necessary to stick too closely to nature, the variations being equally as humorous and sometimes more so. Any ingenious person can work out a series with very little difficulty, and the addition of such queer and original favors will make for merriment around any festive board or upon any occasion. Moreover, they possess the advantage of being inexpensive, for the cost is practically nil.

A PLUMP PORKER.

SOCIETY

The Cathedral was the scene of a quiet, but pretty wedding this morning when at 8:30 o'clock Miss Kathryn Smith became the bride of Mr. John Disser. Father Roche performed the ceremony and celebrated the mass. Miss Gerweis, of Dayton, Ohio, sang the offertory. Miss Margaret Disser and Clem Smith, sister and brother of the bride and groom, acted as bridesmaid and groomsman. The bride wore a blue cloth gown made with military coat, and a blue hat trimmed with ribbon and blue quills. The maid of honor wore a dark blue cloth suit with large hat trimmed with plumes. She carried a cluster of yellow chrysanthemums and the bride held only her rosary. After the wedding the bridal party were driven to the home of the bride's father, James Smith, 718 East Lewis street, where the wedding breakfast was served. Only immediate relatives were present and Miss Gerweis and Miss Florence O'Neil, of Lafayette, were the out of town guests. About noon Mr. and Mrs. Disser left for a tour of eastern cities and they will be at home after Dec. 12 at 447 East Pontiac street. The bride is a capable and quite a pretty looking brunette with many friends. Mr. Disser is a son of Mr. and Mrs. Joseph Disser, 1151 Hanna street. He is a wide awake, energetic young man, with much affability of manner, and holds a trustworthy position in the Pennsylvania railroad offices.

An exceedingly pretty party in honor of Miss Rose Gibson, of 1214 Oak street, was an event enjoyed by nearly forty of her friends on Friday evening. Mrs. Agnes Parent, a sister of Miss Gibson, Miss Nellie Phelps and Mrs. Gilbert Lehman assisted the hostess in the entertainment. The young ladies were invited from 5 to 8:30 o'clock. The house was tastefully decorated with roses, in pink and white, and Japanese lanterns. Roses were seen in every possible way in the decorations, and the same form, the rose, was carried out in the supper as much as possible. Japanese dolls, daintily dressed, were presented the young ladies as souvenirs. Later in the evening a number of young men called and were served a buffet supper. Pedro proved a pleasant amusement afterward. During the evening Miss Gibson, who is to be married shortly, was given a number of beautiful presents, a "shower" of novelty articles, in fact. Prizes were given for high scores in pedro and were won by Mrs. Lehman, who presented it to the bride. Mr. McCullen, Miss Edith Vogley and James McMahon. The wedding of Miss Gibson and Mr. Harry Robertson will take place in the Cathedral tomorrow morning at 7 o'clock. Miss Loretta Zurbach and Thomas Robertson will be the attendants. Grace Van Studdiford Concert.

The appearance of Grace Van Studdiford in concert at the Majestic on Thursday night, interests many people who remember with much pleasure her work in "Red Feather" at the temple theater a few years ago. Afterwards Miss Van Studdiford was heard at the same theater in "Lady Teazle" and she will be heard this time in a number of songs which she sang with such distinction then. With the noted prima donna will be her sister, Miss Mary Quivey, of North Manchester, violinist and cellist with Miss Edith Bowyer Whiffen, of Chicago, as accompanist.

Still another noted member of the company is Miss Lillian Woodward, of Chicago, who has recently returned from triumphs in London and other cities of Europe. Miss Woodward appears in musical melodrama which has been defined briefly, as the recitation of dramatic poems to the accompaniment of appropriate music. The idea originated in London in the mind of Stanley Hawley; musician, dreamer, litterateur and artist, who has made it a life-study. In England the idea has already tremendous vogue. In America in aught but an insignificant way, it is as yet a form of entertainment practically unknown. Miss Woodward is blazing the way for her chosen art and is meeting with success wherever her pioneer work carries her.

Added to the expression of which Miss Woodward is capable is the musical setting of the poems she recites; often this setting is especially composed for that particular poem and the harmony is complete.

Miss Van Studdiford's concert tour is limited to one week, under the management of Mrs. A. J. Tron, of Indianapolis. Next week she will re-enter vaudeville.

WIEBKE SHOWS WRITERS WHAT A GOOD FELLOW HE IS

Anniversary of Opening of Hof Brau Celebrated With a Banquet.

Most of the newspaper men of the city have always been ready to agree that Harry A. Wiebke is a good fellow and those who were present as his guests last night when he celebrated the first anniversary of the Hof Brau Haus, will concede that the proposition is a double riveted cinch.

He threw two of his dining rooms on the second floor together and set out a spread that for judgment in the matter of selection, appointment and good service was all that anybody could ask and more than most of the guests were used to.

Gart Shober was general factotem and he did the inviting and pushed the button when the Swinney park water ran out. He also introduced Harry M. Williams, managing editor of the Sentinel, who was toastmaster.

There were some real good speeches made by the newspaper men and by the host, who said he was glad to have the fraternity as his guests, and he proved it. Here is what was served up and it was discussed in a fashion to make the chef proud of himself:

Blue Points.
Celery.
Cream of Tomato Soup.
Olives.
Venison Roast. Currant Jelly.
Browned Potatoes.
Chicken Salad.
Cheese and Crackers.
Coffee.

Those who attended and made speeches: L. A. Griebel and Anselm Fuelber, of the Staats-Zeitung; Gart Shober, of the Labor Times-Herald; T. Murray Reed, Reuben Borough, Arthur Stewart, Dick Crosby and Milton S. Bolerjack, of the Journal-Gazette, Howard B. Lewis, of the Fort Wayne News; Ben Ungemach and Eugene Troendle, of the Frie-Presse, and H. M. Williams and Charles H. Spalding, of the Sentinel.

Mr. Wiebke's geniality and good business judgment have combined to make the Hof Brau a success and as he attributed more or less of his big patronage to the friendliness of the newspapers he sought to show his appreciation. He did.

MINISTERS DIVIDE CITY INTO THREE SECTIONS FOR THANKSGIVING

Innovation in Religious Affairs Will be Inaugurated.

All the churches in the city that are represented by their pastors in the Ministerial association, have combined for Thanksgiving day and have divided the city into three sections in each of which a union service will be held in some church at which all the people in that section will worship.

The sections are called the south, east and west. The south section comprises all that territory south of the railroad and the service for this section will be held in the Third Presbyterian church, Rev. Canse preaching the sermon. The west section is composed of all that portion of the city lying west of Calhoun street and north of the railroads. The service for this section will be held in the Westminster church, and Rev. Nethercut will preach the sermon. The east section comprising that part of the city north of the railroad and east of Calhoun street, will hold services in the First M. E. church and Rev. Vichert will preach the sermon.

This plan of dividing the city into sections is an innovation in religious affairs in this city. Heretofore various denominations like the Presbyterians and the Methodists have combined their several churches and held a union service in one church. It is thought that this geographical, instead of denominational division will prove to be quite successful.

NEW HAVEN MAY HAVE BANK.

Recent developments in New Haven seem to indicate that a bank, which has long been talked of, will soon be started in that city. Strass Bros., of Ligonier, are said to be willing to put in $25,000 to start a bank and it is said that they would only require $10,000 of local capital as a guarantee of good faith. They also propose that the directorate be composed of seven members, of whom four shall be New Haven stockholders.

A GOOD AFTER-DINNER CIGAR.

Ranke & Nussbaum Say the Chicos Just Fill the Bill.

The time to enjoy a real good cigar is after a good dinner. "There is no better time to test the quality of Wadsworth Bros.' Chicos than to light one right after a hearty meal," said Mr. Ranke, of Ranke & Nussbaum. It just fills the bill for a good after-dinner cigar.

It is clear, long Havana filler of superior quality, and the size is exactly right.

Ranke & Nussbaum say they have sold more Chicos since they introduced this brand in Fort Wayne than they sold before of any brand in four times as long. This shows how well it pleases the smoker who enjoys a good cigar.

Considering its superior quality the price at which it sells, five cents straight, is a surprise.

Step into Ranke & Nussbaums drug store today, Mr. Smoker, and get a pocket full of Wadsworth Bros.' Chicos.

I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to any one suffering from kidney and bladder trouble. POSTMASTER ROBBED.

G. W. Fouts, postmaster at Riverton, Ia., nearly lost his life and was robbed of all comfort, according to his letter, which says: "For 20 years I had chronic liver complaint, which led to such a severe case of jaundice that even my finger nails turned yellow; when my doctor prescribed Electric Bitters, which cured me and have kept me well for eleven years." Sure cure for Biliousness, Neuralgia, Weakness and all Stomach, Liver, Kidney and Bladder derangements. A wonderful tonic. At Dreier & Bro.'s drug store. 50 cents.

Reed or Sieloff to Take Duffy's Place With Gardner.

Either Jack Reed or Otto Sieloff will meet Jimmy Gardner before the St. Joe Athletic club Thanksgiving and no matter which man is substituted he ought to give a good account of himself and make a match worth seeing. "Kid" Wilson and "Packy" McFarland will be on in one of the preliminaries and it is probable Beckner will take on Ray Robinson in the other.

NO CASE OF PNEUMONIA ON RECORD.

We do not know of a single instance where a cough or cold resulted in pneumonia or consumption when Foley's Honey and Tar had been taken. It cures coughs and colds perfectly, so do not take chances with some unknown preparation which may contain opiates, which cause constipation, a condition that retards recovery from a cold. REFORM OR REVOLUTION IS THE ISSUE SAYS SCHURMAN

Noted Educator Says a Fair System Will Avert an Upheaval.

New York, Nov. 20.—Dr. Jacob Gould Schurman, president of Cornell university, in an address delivered yesterday in Old Trinity, attacked the present industrial system and declared that unless something was done for the wage earner by the big capitalists the end would be social revolution. The address was listened to by a big gathering and was given under the auspices of the Seabury society. Dr. Schurman's remarks created a sensation. He said in part:

"Steam, electricity and consolidated capital are in our own days eliminating the small producer and the small trader. The chances of young men becoming independent producers and traders, when business is conducted on the scale of millions, instead of thousands or hundreds of dollars, is vastly less than it was in the time of our fathers.

"Has man no power to protect himself against this supposed natural tendency? Assuredly he has. There are remedies within his reach which he may use at any time and which it may be prudent to use for extirpating the existing evil before it becomes more malignant and more general.

Sees Fallacy in Protection.

"In the first place, trusts which are monopolistic and oppressive may be deprived of the advantages which they now enjoy as a result of tariff or other legislation.

"I take it that the American people are committed to the policy of protection. But no economic or political program can long be used as a shelter for injustice or oppression of the people, and if any tariff schedule does actually enable a trust to exploit the people for it own enrichment that tariff schedule is doomed, no matter how much talk there may be of the sanctity of the tariff or the solemn duty of standing pat.

"No doubt governmental interference with business is bad, but worse still is it for the government to stand supinely by while combinations of individuals use the name of business to oppress the public.

"Mr. Hughes' investigations demonstrated in the high places of business a shameless disregard of morality, honor and fidelity to sacred obligations and trusts. At the same time the legal officials and the judicial tribunals of the states and of the nation have been furnishing similar presentments of the immoral practices of other large companies and corporations—notably the public service corporations and the corporations dealing in the necessaries of life.

Wage-Earner Aroused.

"The wage-earner, feeling himself and his family doomed to poverty, rises in rebellion against the economic system which makes such things possible. He protests that capital gets too large a share of the product which laboring men create. His remedy, when he has a remedy, is confiscation of private capital in the public interests and the establishment of a socialistic state, in which all shall work and all receive compensation in proportion to their deserts.

"The masses of wage-earners are, I believe, in angry revolt against the vast inequalities which the present economic system produces. Shall the end be socialism, revolution, or what? For remember that these discontented classes may easily constitute the majority of our voters, and that in this republic policies are determined by the vote of the majority.

"Somehow—I know not how, but somehow—the organizers and financiers and managers of our most modern establishments of production and transportation must devise a method whereby the men whose labor builds them up shall become shareholders in the enterprises. The present discontent and rankling sense of injustice must be got rid of if our economic and industrial system is to survive."

COMMANDER PEARY SAID BY CREW TO HAVE BEEN CRUEL

Report Comes that Men of the Roosevelt Were Made to Suffer.

Ottawa, Ont., Nov. 20.—Charges of Peary's mistreatment of his crew, of hardships imposed unnecessarily on the passage south, beside which the sufferings of the frozen north were as nothing; of filthy quarters—in short, a general criticism of the man who has pushed farthest north, is contained in a letter from one of the Roosevelt's crew which was received here yesterday.

J. Shortall is the complainant. He wrote his letter on Oct. 22 at Hopehale. It was forwarded on the ship Virginia Lake to Sydney, N. S., where it was mailed to friends in Ottawa.

Nine Men Try to Quit Ship.

Shortall writes that conditions had become so bad when they reached Hopedale that the mate, four sailors, and four firemen refused to go further on the ship, which was leaking badly through its crushed stern.

The Roosevelt had slung its third rudder, which was but a poor makeshift. Two rudders were carried away on the down passage. When the vessel got to Hopedale there was only one pintle in its rudder. The crew objected to going further in it, fearing it would be lost.

The crew had little to eat and was living in squalor, Shortall said. Their experiences were far worse, he wrote, than the hardships they endured in the polar regions.

The men wanted a survey on ship, but Commander Peary and Capt. Bartlett would not harken to this or to the men coming home on the Virginian Lake.

Shortall says they had the hardest time on the voyage of any crew that ever was afloat. A recital of their hardships would fill a book. He declared that none of them would go north again under any consideration.

Two Boilers Burst.

One of the crew of the Virginian Lake who boarded the Roosevelt at Hopedale stated the crew told him it had three boilers when it left Sydney, but before it reached Greenland two of them burst.

The crew also said the ship was anything but strong. It was totally unfit for arctic work, and, as one of them put it, "after getting into heavy ice it used to go together like an accordion playing music." The Roosevelt, it is said, is altogether too slight for forcing its way through the floes to the pole.

On the way north the men said that they landed part of the stores, Peary telling them that in fifteen months there would be a relief ship sent to them. But such a ship never came. Since August last, they said, they have been living on two meals a day. They criticised Peary in the strongest terms possible and said they would not undertake such a voyage in such a ship again for all the money in the United States treasury.

JUNK DEALERS ACCUSED OF ENCOURAGING BOYS TO STEAL

Organized Gang of Lads Rounded Up by Officers —The City Court.

John Siperstine and Samuel Gibson, junk dealers, who live at 1724 Lafayette street and 725 East Wayne street respectively, were arraigned in the city court this morning on the charge of purchasing railroad brass from William Shelley and Frank Knight and their cases were continued under bonds of $50 each until tomorrow morning.

The lads were charged with petit larceny and their cases were also continued. They testified that they began to steal brass in August and sold the first lot to one of the men and he encouraged them to get more and asked no questions.

Lieutenant Neufer and Patrolman Clark, of the Pennsylvania railroad police force, made the arrests and they state that by their own confessions the boys have stolen 230 pounds of brass and 40 pounds of copper, but they believe more has been taken. Other boys are implicated in the thefts and more arrests will probably be made.

William Fitzgerald, who gave the name of Sprout yesterday, was up for drunkenness and was let go with an admonition that he would draw the capital prize upon hi snext appearance.

RACKED BY PAIN, MILLER LED HIS BRIDE TO THE ALTAR

Fort Wayne Man, Suffering from Injury, Faints After Ceremony.

With pangs of pain seemingly intense enough to tear his life out, says the Auburn Dispatch, Thomas Miller, of Fort Wayne, led his bride, Miss Leona Richards, to the bridal altar Sunday afternoon at the home of her parents, Mr. and Mrs. Jacob Richards, on South Indiana avenue, and within five minutes succumbed to unconsciousness. Dr. Baxter was called and after using powerful anaesthetics was relieved and Monday found him much better. The pain is the result of an injury received while driving a truck wagon in Fort Wayne several weeks ago. In turning a corner his load was upset, throwing it upon him and breaking several ribs. He received the usual treatment at the hospital. The wedding day had been postponed owing to the injury until Sunday, November 18, and not wanting to cause another delay attempted to be present, but was not recovered so as to do so without injury to himself.

The trip caused him great pain, but he kept up until after the words had been spoken making them one.

Mr. and Mrs. Miller will make their home in Fort Wayne, where Mr. Miller is one of the trusty drivers with the Brown Trucking company.

Mrs. Miller was formerly with the Central Union Telephone company and has a host of friends who wish her well in her matrimonial venture. Rev. J. I. Slater, of Lebanon, Ind., performed the marriage ceremony.

GOING 8,000 MILES TO WED.

New Jersey Girl to Marry Her Lover in the Philippines.

Trenton, N. J., Nov. 20.—A romance begun in the state schools here eight years ago will reach a climax next January in Manila, when Miss Flora Wilkinson Watson, of this city, will become the bride of First Lieutenant William T. Butler of troop E, Sixth United States cavalry, now stationed in the Philippine islands.

Lieutenant Butler was formerly of Morrisville, Pa. In the Spanish-American war he went to the front as a trooper in the Sixth United States cavalry. He quickly won his non-commission chevrons and after the war was promoted to a lieutenancy. Then it was that he asked Miss Watson to be his bride and she consented. Being a mere slip of a girl then, the wedding was delayed and Lieutenant Butler went to the Philippines. He has not seen his sweetheart for nearly eight years.

Miss Watson was a schoolgirl when she met Lieutenant Butler. She will leave for the Philippine journey of 8,000 miles in December and sail from San Francisco for Manila on January 3. At present she is a pupil in the young ladies' School of Design in Philadelphia.

BARE BANK LOOT SCHEME.

Pekin, Ill., Directors Loaned to Themselves, Using Clever Plan.

Peoria, Ill., Nov. 20.—Sensational developments are shown in the examination of the books of the defunct Tels Smith bank at Pekin. Clever machinations by the directors resulted in the robbery of $400,000 from the depositors and it was shown yesterday that all but 10 per cent. of the money was loaned to officials of the bank themselves to be used in their personal and combined schemes.

It is charged that for the last fifteen years Dietrick C. Smith had not a cent invested in the bank and other evidence is shown by the books that the Smith Wagon and Plow works, owned by the bank and which went into bankruptcy upon the failure of the bank, owed the bank in the neighborhood of $405,000. Plunges on the board of trade have also been shown to have been part cause of the failure of the bank. A whole week has been spent in obtaining nine jurors.

COFFEE IMPORTERS

Publish a Book About Coffee.

There has been much discussion as to Coffee and Postum lately, so much in fact that some of the coffee importers and roasters have taken to type to promote the sale of their wares and check if possible the rapid growth of the use of Postum Food Coffee.

In the coffee importers' book a chapter is headed "Coffee as a Medicine" and advocates its use as such.

Here is an admission of the truth, most important to all interested.

Every physician knows, and every thoughtful person should know, that habitual use of any "medicine" of the drug-stimulant type of coffee or whisky causes irritation of the tissues and organs stimulated and finally sets up disease in the great majority of cases if persisted in. It may show in any one of the many organs of the body and in the great majority of cases can be directly traced to coffee in a most unmistakable way by leaving off the active irritant—coffee—and using Postum Food Coffee for a matter of 10 days. If the result is relief from nervous trouble, dyspepsia, bowel complaint, heart failure, weak eyes, or any other malady set up by a poisoned nervous system, you have your answer with the accuracy of a demonstration in mathematics.

"There's a reason" for Postum.

GOVERNOR WILL BAR BOXING.

Indianapolis, Ind., Nov. 20.—In all probability Governor Hanly shortly will issue an order to all sheriffs of this state that he will put an end to plans of prize-fight promoters. Several bouts in which Chicago pugilists are to be factors are scheduled for Indiana towns within the next three weeks.

Since the death of Mike Ward as the result of the pounding given to him at Grand Rapids, Mich., by Harry Lewis, the Michigan authorities have expressed a desire to eliminate all forms of boxing in that state.

Indiana's governor feels like becoming equally drastic.

THRICE DODGES DEATH IN HOUR.

Wagon Struck by Two Trains and Third Stopped in Time.

Amherst, Wis., Nov. 20.—Hit by two trains and nearly run down by a third, all within an hour, is the record for thrilling and narrow escapes from death held by August Petoka, of Stockton. Petoka was on his way from Amherst, and when crossing the Green Bay railroad tracks his wagon was struck by a freight train which he did not see approaching. The frightened team tore down the Wisconsin Central right of way into a deep cut. Petoka turned the team around and was nearly out when the wagon was struck and demolished by a Central train, but Petoka and the horses were unhurt. Petoka clung to the reins and was dragged onto the St. Paul bridge, where the station agent found him just in time to signal and stop a fast freight which would have struck him.

ROOSEVELT GAINS WHOLE DAY.

May Arrive at Washington Thirty Hours Ahead of Schedule.

Washington, Nov. 20.—The latest word received at the white house from President Roosevelt before he left Colon on his way to Ponce, Porto Rico, indicates that he will reach Washington on his return at least twenty-four and probably thirty hours earlier than the original itinerary of the isthmian trip contemplated.

He gained a day at Panama, leaving there Saturday night instead of Sunday night, and is expected to finish his visit to Porto Rico and embark on the Louisiana from San Juan Wednesday night.

If the Louisiana makes as good time in her run from San Juan to Hampton roads as was made to Colon the vessel will arrive and transfer the president to the Mayflower in the lower Potomac in time for him to reach Washington late Sunday evening or Monday morning next.

GEORGIA CAYVAN, ACTRESS, DIES

Woman Once Well Known on Stage Expires After Long Illness.

New York, Nov. 20.—After an illness of seven years Miss Georgia Cayvan, at one time one of the most popular actresses on the American stage, died at Sanford Hall sanitarium, Flushing, last evening. Death was painless and came from the progress of the disease which ruined her reason and made her for four years helpless.

Full arrangements for the funeral have not been made, but the body will be buried near Boston, when the family shall decide.

Miss Cayvan gave signs of breaking down in 1892, when she became ill and an operation was necessary. Then followed in 1896 the Teall divorce suit, in which her name was mentioned. Miss Cayvan went into court to defend her name, and was indorsed by members of woman's clubs, Mrs. A. M. Palmer and many others who rallied to her support. She was exonerated publicly, but in her feeble condition she never recovered from the shock and in 1900 was removed to Sanford Hall.

STOCKS AND BONDS.

The Day on Wall Street.

New York, Nov. 20.—The opening trading in stocks was active and fluctuations were irregular. A few individual issues moved widely, but the general range was narrow. Illinois Central rose 3, St. Paul and Louisville & Nashville 1½, National Railroad of Mexico preferred 1¼, Mexican Central 1 and New York Central and Manhattan large fractions. Canadian Pacific ran off 1¾.

Selling orders became more numerous and the market declined quite generally to a fraction below yesterday's closing. Vigorous buying of the Southern group of stocks and some of the railroad equipment stocks caused a rally later but the western group did not respond energetically. Illinois Central jumped 5¾. General Electric 4, Louisville & Nashville 2¾, Kansas City Southern preferred, Nashville, Chattanooga & St. Louis, Hocking Coal and Railway Steel Spring 1⅜ to 1⅝ and Reading and Great Northern preferred, Atlantic Coast Line, Kansas City Southern and Delaware & Hudson 1 to 1½.

There were some further advances, but the stiffness of the money rate which rose to 7 per cent, induced realizing and prices ran off. Illinois Central reacted 2¼. Northwestern preferred sold at a decline of 9. The market was steady and dull at noon. Bonds were irregular.

St. Paul was bid for in round amounts and the prices rose rapidly to 159½, a gain of 2⅝. Very little effect however, was produced on the other favorite stocks by this demonstration, traders preferred to take profits at all favorable opportunities. St. Paul subsequently slipped over a point and business became very dull. Nashville, Chattanooga & St. Louis extended its advance to 5⅞.

The purchasing movement in selected stocks which had been a feature of the day seemed to have expended its influence in the latter part of the afternoon and the market fell off all around.

The market closed dull and easy. There was further selling on the rise to 10 per cent in the money rate and only minor stocks showed any strength. Union Pacific fell 1⅝ under last night. Atchison, New York Central and Atlantic Coast Line 1⅜, Pacific Coast 2¾ and some other prominent stocks. St. Paul a fraction. Federal Mining sold at an advance of 5, Wheeling & Lake Erie preferred 1⅝ to 2 and St. Louis Southwestern preferred and New York Dock 1¼.

Cincinnati University Strengthens Eleven to Play Indians.

Cincinnati, Ohio, Nov. 20.—By an agreement between the Cincinnati University Athletic council and the management of the Carlisle Indian school the local team will be strengthened by the addition of several former university star players still residents here for the foot ball contest at League park in this city next Saturday. The proposition was made in order to relieve the regular Cincinnati University teams for later games, low scholastic grades and physical injuries having crippled the team considerably. By this agreement a better contest is anticipated, although the general expectation is for a victory for Carlisle, whose team has just reached here after its victory over the western champions of the University of Minnesota.

Day's Happenings in the Industrial World

HOMESEEKERS' TRAVEL.

Largest Business in History of Fort Wayne Railways.

All records in homeseekers' travel out of Fort Wayne territory were smashed today. At this hour it is impossible to give the total number who left for the west and south today, because there are trains leaving the city after The Sentinel is at press, but travel on the early trains was never heavier. The Pennsylvania led in the business with the Wabash a close second. No. 39, which left over the Pennsylvania at 11:30 this morning, carried seventy-three tourists or homeseekers out of this city. A good portion of them came from Van Wert, Monroeville and other stations east of Fort Wayne, and for this part of the crowd the company furnished two tourist cars. Twenty-five were bound for Brownsville, Tex.; thirty-three for Bovine, Tex., and the others were going to other points in Texas and the Indian territory. The early morning Wabash trains carried thirty-six homeseekers out of Fort Wayne and enough tickets had been sold by noon today to carry the total at that hour beyond the fifty mark. Agent Thompson predicted a sale of upwards of sixty. From down the line came news of big sales at other stations and the company found it advisable to make up and send out a special train to handle the business. No. 1 on the Nickel Plate left the city with twenty-six homeseekers from this immediate territory, besides a number who boarded the train at points east of Fort Wayne. There will also be a number of passengers of this class who will leave the city on No. 5 at 4:30 this afternoon.

MILLIONS FOR EQUIPMENT.

The large purchases of equipment which have been announced within the last few days by western railroads indicate that all records relating to increases in equipment will be smashed this year, says the Railway World. The Wabash expects within a few weeks to make contracts for $12,320,000 worth of new cars and engines, and the Northern Pacific has just made public its purchase of $7,700,000 worth of new freight cars.

The Burlington has begun to receive $5,558,000 worth of new locomotives and cars, the orders for which will not be filled until next year. The Santa Fe has in orders for $8,000,000 worth of cars and locomotives. Added to the recently announced orders by the Harriman lines, aggregating $21,560,000, and by the Rock Island, amounting to $6,000,000, this makes $61,138,000 in orders which six western systems have placed, practically all of them for delivery early next year. Other roads are making purchases on similarly large scale, which they are not yet ready to announce.

TWO SHOPMEN INJURED.

J. H. Leibig, one of the new apprentices at the Wabash machine shop, had the thumb of his left hand cut and bruised most painfully this morning by getting it caught in a shaper he was operating. The other unfortunate was C. W. Rivers, also of the Wabash machine shop. He was in the act of taking down an engine's dome casing when it slipped and fell on his left hand, bruising the fingers. He will be unable to work for a few days.

PANHANDLE TO THE FORE.

Sends Train from Pittsburg to Chicago in 10 Hours and 52 Minutes.

(Pittsburg Post.)

All records for speed on the Panhandle were broken Sunday morning, when the Pennsylvania made the run from this city to Chicago, a distance of 507 miles, in 10 hours and 52 minutes. This is almost five hours faster than the schedule for train No. 21, the fastest train operated on the Southwest system of the Pennsylvania lines. The Pennsylvania has made a number of fast runs during the past few months, and the record established on the Panhandle Sunday morning has caused considerable comment in railroad circles.

A special train of one sleeper, one coach and two baggage cars left this city Saturday at midnight and arrived at Chicago 10 hours and 52 minutes later. On board the train were members of the Jefferson de Angelis company, which played at the Nixon theater last week, and Frederick B. Sankey, city passenger agent for the Pennsylvania lines in Pittsburg. The fast run was made possible by the many big improvements to the roadbed on the Southwest system during the past year, and will probably result in the running time of several of the fast trains being reduced.

When the Pennsylvania Special, the 18-hour train between New York and Chicago, was placed in operation more than a year ago the running time of the through trains on the Panhandle was also reduced, but the reductions were not to be compared with those made on the Fort Wayne line. At that time it was thought to be impossible to make any big reductions on the Panhandle, but the record Sunday proves that as high speed can be made on the Panhandle as on any other part of the Pennsylvania.

Passenger officials of the Pennsylvania lines west have decided no changes are to be made in the schedule of the passenger trains this fall. Next Sunday is the day on which the fall schedule usually becomes effective. This is the first time in the history of the Pennsylvania that no change has been made in the fall schedule. This demonstrates that high speed can be made during the winter as well as in the summer, and some big reductions in running time is expected next spring.

ENGINE IN THE DITCH.

Mistaken Signals Caused Pennsy Train to Be Derailed.

A Pennsylvania freight engine and several cars were derailed at the interlocking station at Hobart at an early hour this morning. Fireman S. J. Dill and Brakeman F. H. Eme jumped from the cab when they saw that derailment was inevitable and both were injured, though neither seriously. Mr. Dill sustained some cuts and bruises about the body and arms and one of his wrists was slightly sprained, and Mr. Eme had one wrist sprained quite badly and also sustained some bruises and cuts. The engineer and the other members of the train crew escaped injury. When the engine went off the rails, she ran some distance and then went over on her side, but is not greatly damaged. The interlocking machinery is deranged and the tracks were blocked several hours, but No. 18, eastbound, was the only mail or passenger train delayed by the accident. The accident is said to have been caused by a mistake in reading the signals, the weather being bad and a mist and fog prevailing at the time.

FOREMAN RESIGNS.

Moffat St. Clair has been compelled, on account of failing health, to retire from the position of foreman of the brush department of the Fort Wayne Electric works and he will engage in some line of work where the duties are less arduous and confining. Tony Miller, one of the best known machinists at the works, has been appointed foreman of the brush-holder room and is already in charge there.

FRANK MARKEY IS INSTALLED.

Frank Markey, who came here from Springfield last week to succeed T. S. McGee in a clerical position at the Wabash master mechanic's office, was inducted into those duties yesterday and is turning out work like an experienced man. Mr. Markey was employed in the company's shop offices in this city before he went to Springfield, seven years ago.

Frank Bubb, a young farmer residing near the Nine Mile house, has moved to the city and taken a position in the Bass blacksmith shop, with Foreman Joseph Slater.

Foreman R. Bergman, of the Bass machine shop, is sick and Assistant Foreman J. W. Thompson is away on business. Machinist Jacob Luley is acting foreman in the meantime.

Foreman Joseph Slater, of the Bass blacksmith shop, is in Dayton, Ohio, looking after some contracts for forgings. Jacob Hausbach is acting foreman during the absence of Mr. Slater.

Master Mechanic H. J. Horstmann, of the Bass works, who, with his wife, has been combining business with a pleasure trip in the west, will arrive home Thursday, after an absence of three weeks.

J. L. Barry, machinist in the air brake department of the Pennsylvania shops, is laying off to look after some private business. O. D. Shookman, of the same department, is laying off for the purpose of moving his family into new quarters.

John W. Thompson, assistant foreman of the Bass machine shop, left for McKees Rock, Pa., last night, to look after the installation of some machinery that was built at the Bass works and which is now in progress of installation.

F. Fagan and O. W. Robbins, firemen, and J. H. Kepler, H. Brazer and J. S. DeWitt, brakemen, are Nickel Plate men laying off. The latter has taken a thirty-day leave of absence and will visit his home to try farm life for a rest.

Herman Boedecker, who had a leg badly injured several weeks ago, has recovered and this morning he was able to resume his duties in the Pennsylvania machine shop. C. W. Howey, who had been sick a few days, also resumed work in that shop this morning.

Foreman B. F. Sarver, of the boiler department of the Pennsylvania shops, was permitted to sit with his family at the midday meal today. There has been diphtheria in the family of Mr. Sarver for two weeks and until today he was compelled to remain away from the house. The patient has recovered.

F. Johnson resigned a position at the Wabash boiler shop this morning and tomorrow he will go to Chicago to take the postion of hostler at the Fifty-fifth street round house of the Pennsylvania. W. Smith and C. F. Mueller also resigned positions at the Wabash shops this morning.

F. W. Schultz, formerly employed at the Kerr Murray works, has taken a position in the Wabash shops. Herman Speigel, formerly of the Electric works, became an apprentice in the mechanical department of the Wabash this morning. Frank Striner, a machinist's helper, also took a position at the Wabash shops.

Charles Winkler, assistant baggage man at the Pennsylvania depot, this morning received a letter from his son, Charles, written at Bombay, East India, stating that he was well and having an excellent voyage. Charles Winkler, jr., is in the United States navy and is en route to the Philippines. He was here on a furlough a short time ago.

The Fort Wayne Electric company took on some new men again this morning, among the new ones being William Klaus, R. M. Pence, Ed Henech, W. R. Devlin, Charles March, William Murphy and Frank Green. The latter was formerly employed as a route agent for the United States Express company. He succeeds Herman Goodyear, a packer who recently resigned to take a position in the city lighting power plant on Spy Run avenue.

The Pullman company has completed the delivery of eight new baggage and postal cars to the Lake Erie and Western road and will begin this week the delivery of the twenty-five new modern, up-to-date passenger coaches. These coaches were contracted for last spring and were to have been delivered in June, preparatory to improving the service of the Lake Erie and Western road. No road in the country has older equipment than the Lake Erie and Western, and the passenger men are anxious to have the new equipment in service.

CORRECT FASHION

SWELL TUXEDO SUITS

DON'T BE A BACK NUMBER

In the matter of dress the man of today should be a citizen of the world. Even if he expects to stay at home he requires the sort of clothes that are correct wherever a man may go. With all civilized countries so closely bound together by wire and rail and steamship, correct clothes are correct in London, or Paris, or Berlin, or New York, or San Francisco, or right here in your own town. In the styles of every season there is a correct world standard. There may be a thousand petty local standards: for that matter every little town may be a law unto itself. But there is only one "correct" and we are showing that.

MEN'S SUITS AND OVERCOATS

Everything that is new and nobby, and the variety of styles and fabrics is the greatest we have ever shown.

In selecting this superb stock we have confined our purchases, as in the past, to the very best and most reliable clothing manufacturers in the country, and the result is that we have a stock that stands second to none in the city.

We invite you to come in and see these new fall styles whether you are ready to buy or not. We are always glad to show you our goods.

Our prices are within the reach of all.

We want him to see for himself the elegance of the clothes we are prepared to offer him. Our stock of young men's attire embraces all of the very latest and newest styles of fabrics, skillfully tailored and handsomely tailored; such clothes, in fact, as those for which the local tailor would think nothing of charging double our price.

As for the fitting qualities of these garments we say beforehand that we can fit any young man perfectly, and thus provide clothes which cannot be told from custom work.

An Imitation Stove Will Give Imitation Heat

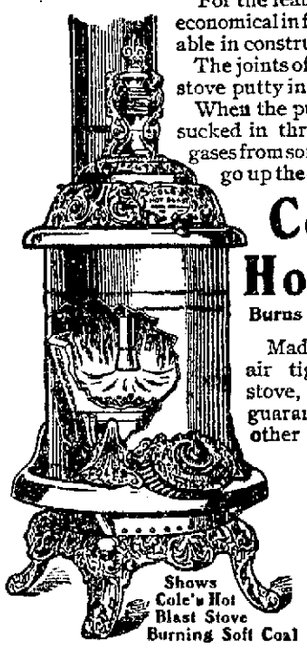
Avoid the cheaply constructed, putty jointed stove as you would counterfeit money, because it is just as worthless—and in many cases even more so. For not only does it radiate heat badly, but it wastes its original cost many times in fuel.

The majority of manufacturers, attracted by the phenomenal success of Cole's Original Hot Blast Stove, have imitated and copied it ever since it was put on the market. But in *looks* only have they been able to reproduce this wonderful heater.

For the features which make Cole's Hot Blast so economical in fuel, so effective in heating, and so durable in construction, are all *patented* and *protected*.

The joints of the ordinary stove are plastered with stove putty in an endeavor to make them air-tight.

When the putty dries up and falls out, cold air is sucked in through the cracks—and the valuable gases from soft or hard coal, which should be *burned*, go up the chimney, along with most of the heat.



Shows Cole's Hot Blast Stove Burning Soft Coal

Cole's Original Hot Blast Stove

Burns Soft Coal, Lignite, Hard Coal or Wood

Made without stove putty. It remains air tight during the entire life of the stove, and is sold under the following guarantee, which cannot be made on any other heating stove in the world:

GUARANTEE:

1—We guarantee a saving of one-third in fuel over any lower draft stove of the same size with soft coal or slack.
2—We guarantee Cole's Hot Blast to use less hard coal for heating a given space than any base burner made with the same size fire-pot.
3—We guarantee that the rooms can be heated from one to two hours each morning, with the soft coal or hard coal put in the stove the evening before.
4—We guarantee that the stove will hold fire with soft coal thirty-six hours without attention.
5—We guarantee a uniform heat day and night, with soft coal, hard coal, or lignite.
6—We guarantee every stove to remain absolutely air-tight as long as used.
7—We guarantee the feed door to be smoke and dust proof.

The big expense of heating your home is in the fuel and not the first cost of your stove. Don't let yourself be persuaded to buy anything but Cole's Original Hot Blast.

Ask for free booklet on "Scientific Combustion," which will show you how to heat your home twice as comfortably at one-half the present cost.

CAUTION See the name "Cole's Hot Blast from Chicago," on the feed door of each stove. None genuine without it.

Seldom Wear Out

Dr. Miles' Anti-Pain Pills relieve pain—not only once, but as many times as it is necessary to take them. Many persons who suffer from chronic ailments find in them a source of great relief from the suffering which they would otherwise be compelled to endure. Their soothing influence upon the nerves strengthen rather than weaken them. For this reason they seldom lose their effectiveness.

"I am 62 years old and have suffered for 42 years from nervous troubles, rheumatism and neuralgia, palpitation of the heart, shortness of breath, sleeplessness, and pain around the heart. The Dr. Miles Anti-Pain Pills have been a blessing to me. I don't know what I should do without them, and they are the only remedy I have ever used that either did not wear out in less time than I have been using them, or else the injurious results were such that I would be obliged to cease their use."

MRS. S. C. ROBINSON,
27 Carter St., Chattanooga, Tenn.

Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit. If it fails, he will return your money. 25 doses, 25 cents. Never sold in bulk.

We have used Chamberlain's Cough Remedy in our house for seven years, and it has always proved to be a reliable remedy. We have found that it would do more than the manufacturers claim for it. It is especially good for croup and whooping cough.

Orino is more effective than pills or ordinary cathartics. Refuse substitutes. Dreier & Bro.
